

## Vice-Chancellor's Message

I was under deep pain and anguish to learn that an unfortunate incident happened outside the university campus in the night of 21-05-2022 wherein one of my university student met a fatal accident and passed away. This incidence shocked the entire fraternity and students together. Taking advantage of this mis-happening some miscreants and anti-social elements ravaged the university facilities leading to closure of university sine die. On behalf of university fraternity, I deeply mourn and pray god for eternal soul to rest in peace and provide courage and strength to bereaved family members and friends of the student to overcome from this irreparable loss of life. In the interest of our beloved students I am eager to restore the normalcy and teaching learning process in the campus at the earliest and hope to open the university from 14<sup>th</sup> of June 2022 onward.

The 12<sup>th</sup> Research Council Meeting held during 2<sup>nd</sup> to 5<sup>th</sup> May 2022 was effective where scientists presented the progress report of the on-going research projects which were found to be farmers need based centric. Further, I endeavor and expect that normalcy will restore very soon and wish all the best to everyone in the campus.
